TEST REPORT

TO WHOM IT MAY CONCERN

This is to confirm that the ENERLYF Air Conditioner Energy saving device for Air conditioner installed at **SOFRONICS SYSTEMS**, FF-4, Dhara Center, Vijay cross roads, Ahmedabad - 395 007, Gujarat.

The above unit was installed and commissioned in May 2018 to our office having 1.5 ton Inverter AC in CEO cabin.

Power consumption was recorded by an energy meter installed by us specifically to measure the power saving performance. The meter shows an average power saving of **23.6%** achieved to date.

We are satisfied by service provided by the ENERLYF team and ENERLYF Air Conditioner Energy saver for air conditioners as its very unique with respect to technology and ease of monitoring & management.

We are pleased to note that their device is saving more than the assured level. ENERLYF's after sales service is satisfactory. We have no hesitation in recommending this technology for other AC systems. We appreciate the innovation of this technology and the #SaveInIndia initiative to reduce global warming through ENERLYF.
